

SAC64 Latest Release Info

Introduction

Welcome to SAC64. This 64 Bit environment offers an exciting new vision from Bob Lentini. The interface is built around the idea of a complete Live Virtual Front-Of-House Console and 24 Complete Virtual Monitor Consoles, all wrapped up in one program to offer an entirely new way of manipulating live audio in the virtual world.

Please take some time to explore the built-in HelpFile and also download the .pdf version of the manual, available at www.RMLLabs.com. The navigation capabilities are powerful and complex and will require some getting used to. Reading, exploring and practicing inside the environment will greatly enhance your experience of the interface. The rewards gained for the time invested, will be great. Have fun!
